Introduction

As you review our policy, keep in mind that when using any of our products or services or interacting with TiVo Corporation, TiVo Solutions, Inc., or Rovi Corporation or any of our subsidiaries that link to this Privacy Policy (collectively, “TiVo,” “we,” or “us”) or that do not have a separate privacy policy, you consent to the collection, transfer, storage, processing, disclosure and use of your information as described in this Privacy Policy. This includes any information you choose to provide that is deemed sensitive under applicable law. If you do not agree with the terms of this Privacy Policy, do not access or use the TiVo products, services or any other aspect of TiVo’s business.

NOTE: Residents of the EEA should refer to TiVo’s Privacy Policy for Residents of the European Economic Area for the TiVo policy that applies to the collection and use of their data.

This Privacy Policy does not apply to any third-party applications or software that integrate with TiVo products or services, or any other third-party products, services, or businesses. TiVo products provided to you directly by your cable or satellite provider are subject to their privacy policy (and not this Privacy Policy). Additionally, separate agreements will govern the delivery, access and use of TiVo products and/or services as specified for such products (such as the terms of service governing the delivery of the TiVo Service, the “TiVo User Agreement”).

Key Highlights of What You Are Consenting To

By using or interacting with TiVo products or services you are consenting to:

- the use of cookies and automated information collection;
- the transfer of your information outside of the country where you live;
- the collection use, sharing and other processing of your information, including for analytics and advertising-related purposes;
and

the use of your information received from third-parties and affiliates.

In each case, you consent to the processing of data by the entities described in this Privacy Policy.

Information We Collect and How We Collect It

Registration Data

When you sign up for a TiVo provided service or activate a TiVo product, we may ask you for information such as your username, password, email address, address, country, date of birth or other demographic information. You may also choose to voluntarily add other information to your profile, such as your mobile phone number. We will store the information provided on our systems and use it for the purposes described in this Privacy Policy.

Social Media and Profiles

For certain TiVo products and services, the information that we may ask you to provide could include name, gender, location, email address, biographical information, and the movies and television shows that you like to watch. When you create such a profile, you may be asked if you want your profile to be public or private. Unless you state that you want your profile to be private your profile will be public, subject to applicable law.

To facilitate searching for and finding friends on some of TiVo’s products and services, TiVo allows users to search for other members using text searches, first and last name, email address, and by using other attributes. Users can invite friends to join certain TiVo products and services by sending invitation emails via our automated invitation system. Where permitted by applicable law, TiVo stores these email addresses so that the respondents may be added to the friend list of the member sending the invitations and to establish relationships between users.

- location data (such as GPS data, zip code, and time zone);
- cable service data (such as cable provider and cable channels);

You may integrate your TiVo account with certain third-party applications, websites, and services (“Third-Party Applications”). These Third-Party Applications may have their own terms and conditions of use and privacy policies and your use of these Third-Party Applications will be governed by and subject to such terms and conditions and privacy policies. In order to enable this functionality, you will be prompted to allow such Third-Party Applications to connect with your TiVo device or account. Once you have enabled this functionality, TiVo will collect, process, and share data with the Third-Party Application that you have authorized. If you do enable your TiVo account with any Third-Party Applications, we may receive information related to your interactions with TiVo products or services through the Third-Party Application, as well as information about your publicly available activity on the Third-Party Application or information you have consented for the Third-Party Application to share with TiVo. If you wish to stop the collection or sharing of information with the specific Third-Party Application you have authorized, you need to disable the feature. TiVo does not endorse and is not responsible or liable for the behavior, features, or content of any Third-Party Application or for any transaction you may enter into with the provider of any such Third-Party Applications.

Information we collect from your account on a Third-Party Application with your consent may include data about you and your friends from that service (such as what you or they have liked or shared). We may use cookies and other technologies to collect this information; you can learn more about such use in the Cookies and Similar Technologies section of this Privacy Policy.

Functional Data

Certain categories of data collected by TiVo are necessary for your TiVo device or the TiVo service to perform its functions and you will not be able to opt out from this data collection, sharing and/or processing. Data falling into these categories is referred to as “Functional Data.”

Audio Data for Voice Control Functionality

If you utilize a TiVo device with voice control functionality, then upon activating voice control the TiVo device begins recording. The TiVo device will only record while you have the voice control activated. The recording is collected by TiVo and/or its service provider. The actual recording of your voice command is then processed by TiVo and/or its service provider to provide the requested functionality.

If you download or use our mobile applications(s), we may collect, either through your mobile device or the application itself, your mobile device identifier, hardware model, operating system version or mobile network information (as well as any registration data you provide to us). Payment Data

If you subscribe to the TiVo service or make other purchases through a TiVo product, TiVo service, or through a TiVo sales specialist, your credit or debit card information (such as card type and expiration date), billing address, shipping address, and other financial data that we need to process your payment or purchase may be collected and stored by us and/or the payment processors with which we work. We may also collect some limited information, such as your postal code, mobile number, and details of your transaction history. In addition, the payment processors generally provide us with some limited information related to you, such as a unique token that enables you to make additional purchases using the information they’ve stored, and your card’s type, expiration date, and certain digits of your card number.

Sweepstakes, Contests & Surveys
From time to time, we may offer you the opportunity to participate in promotions such as sweepstakes, contests, offers, and/or surveys ("Promotional Offers"). A Promotional Offer may be governed by a privacy policy and/or terms and conditions that are additional to, or separate from, this Privacy Policy. If the provisions of the Promotional Offer’s privacy policy or terms and conditions conflict with this Privacy Policy or the relevant user agreement or terms of service for the TiVo product or service that is offering the Promotional Offer, those additional or separate provisions shall prevail. If you participate in a Promotional Offer, we may ask you for certain information in addition to what is stated in this Privacy Policy, including personal information. That additional information may be combined with other account information and may be used and shared as described in this Privacy Policy, or as otherwise described in such Promotional Offer’s privacy policy or terms and conditions.

Specific Information for various products or offered services:

**TiVo Devices such as TiVo DVRs and Minis**

You may opt out of having your viewing logs used in TiVo’s analytics business or sharing that de-identified information with third parties by contacting TiVo Customer Support (support.tivo.com/ContactTiVoSupport) and requesting to opt out under the TiVo Privacy Policy. Please note that the viewing logs are Functional Data, therefore while the data will not be used in the analytics business or shared in a de-identified format with third parties it will still be collected and processed as necessary to continue providing you the TiVo service.

You can also cancel your TiVo account which will stop all data collection. If you call TiVo Customer Support at 1-877-367-8486 you may request that your account be cancelled. Cancelling the TiVo service will stop your TiVo device from functioning. TiVo may, at its option, delete all information for any cancelled accounts. To reactivate your TiVo account you should contact TiVo Customer Support; however, if account information was deleted, reactivating an account may not be possible and a new account would need to be created. We reserve the right (subject to applicable law) to decline requests that are impractical or may jeopardize the privacy of others.

**TiVo Mobile Apps**

If you do not want us to collect location data from a TiVo mobile app, you can disable location services on your mobile device. If you do not want any data shared by the mobile app, please delete the app from your mobile device.

**Marketing Emails**

If you do not want to receive marketing emails from us, you can change your email preferences by logging into your account on tivo.com or clicking on the included “unsubscribe” link (though you will still receive certain account-related emails). We will send you marketing emails only where we are permitted to do so by applicable law.

**Cookies and Similar Technologies**

When you visit TiVo websites, we and our advertising partners may store and access information from your device, including "cookies", clear GIFs (which are also sometimes called web bugs or web beacons) and browser details. We may collect information such as your browser type, the type of operating system you use, the domain name of your Internet service provider, IP address, pages visited on the site, services used and how you have used them. We and our advertising partners do this for a variety of purposes. In the case of our advertising associates, this may include the personalization of advertisements based on your visits to sites in that party’s network.

Please note there is currently no accepted standard on how to respond to Do Not Track signals and that at least some of the TiVo websites do not currently respond to a web browser's Do Not Track instructions (i.e., “signal”). The industry is currently still working toward defining exactly what Do Not Track means, what it means to comply with Do Not Track, and a common approach to responding to Do Not Track. More information about Do Not Track can be found here. Additionally, we may use Google analytics. Google analytics
manages ‘Do Not Track’ instructions from your browser in accordance with its own privacy policies

Another example of how we use cookies might be to track the effectiveness of our marketing and advertising campaigns and to show you TiVo ads on other websites after you have visited our website. Please note: if you continue to use this website, or any other TiVo website, you are consenting to our use of cookies. Information about our use of cookies is contained in our Cookie Policy at https://www.tivo.com/legal/cookies.

Interest-Based Advertising and Analytics

We may partner with ad networks and other ad serving providers (“Advertising Providers”) that serve ads on our behalf and others’ on non-affiliated platforms. Some of those ads may be personalized, meaning that they are intended to be relevant to you based on information Advertising Providers collect about your use of the Site and other sites or apps over time, including information about relationships among different browsers and devices. This type of advertising is known as interest-based advertising.

We adhere to the Digital Advertising Alliance (“DAA”) Self-Regulatory Principles in connection with this interest-based advertising activity. You may visit www.aboutads.info to learn more about this type of advertising and how to opt out of this advertising on websites by companies participating in the DAA self-regulatory program. If you delete your cookies or use a different browser or mobile device, you may need to renew your opt-out choices exercised through the DAA tool. Note that electing to opt out will not stop advertising from appearing in your browser or applications. It may make the ads you see less relevant to your interests. Additionally, your browser may offer tools to limit the use of cookies or to delete cookies; however, if you use these tools, our Site may not function as intended.

We may also work with third parties that collect data about your use of the Site and other sites or apps over time for non-advertising purposes. We use Google Analytics and other third-party services to improve the performance of the Site and for analytics and marketing purposes. For more information about how Google Analytics collects and uses data when you use our website, visit www.google.com/policies/privacy/partners/, and to opt out of Google Analytics, visit tools.google.com/dlpage/gaoptout/.

Privacy Policy of Third Party Services

Our products and services may contain advertisements from third-party advertisers, which are companies other than TiVo that may link to their own websites, online services, or mobile applications. Additionally, as discussed previously in this policy, you may choose to integrate your TiVo account with Third Party Applications. We are not responsible for the privacy practices or the content of these third-party advertisers or Third-Party Applications. If you have questions about how these third-party services use your information, you should review their policies and contact them directly.

Transfer to Other Countries

TiVo transfers, processes, and stores information about our users on servers located in a number of countries. Accordingly, some of your personal information may be used by us and our affiliates, subsidiaries and our suppliers who may be located in countries outside the country where you are located for the purposes outlined in this policy. The data protection laws in these countries may not offer the same level of protection as those in the country where you are located. Information collected within the European Economic Area (EEA) may, for example, be transferred and processed by third parties, located in a country outside the EEA, where you may have fewer legal rights in relation to your information. By providing your personal information to us you understand and expressly consent to us and our business associates and suppliers processing your data in any jurisdiction, including without limitation the United States of America, in accordance with this privacy policy.

Individuals in the EEA and other countries may have certain statutory rights in relation to their personal data. Subject to any exemptions provided by law, you may have the right to request access, seek to update, delete or correct this personal data.
Residents of the EEA, please refer to TiVo’s Privacy Policy for Residents of the EEA for TiVo’s policy related to the collection and use of data.

EU-U.S. Privacy Shield

TiVo Solutions Inc. and its subsidiaries comply with the EU-U.S. Privacy Shield Framework as set forth by the U.S. Department of Commerce regarding the collection, use, and retention of personal information transferred from the EEA to the United States. To learn more about the Privacy Shield Framework, visit the U.S. Department of Commerce’s Privacy Shield website, http://privacyshield.gov. If the TiVo data protection officer for EMEA region is unable to help you, we suggest you refer to your local privacy regulator for help. For example, in the UK that would be the information commissioner’s office at: https://ico.org.uk/.

The TiVo products and services are not directed to children under the age of 16 and we do not knowingly collect personally identifiable information from children under 16. If we learn that we have inadvertently gathered personally identifiable information from a child under 16, we will take reasonable measures to remove that information from our records. If you are a parent of a child under age 16 and become aware that your child has provided personally identifiable information to TiVo, please contact us at privacy@tivo.com and you may request to exercise your applicable access, rectification, cancellation, and/or objection rights. If you are a California resident under the age of 18 and you wish to remove publicly available content, please contact us at privacy@tivo.com.

How Long We Keep Your Information

How long we retain your information depends on why we collected it and how we use it. We will not retain your personal information for longer than is necessary for our business purposes or for legal requirements.

Security of Your Information

We use commercially reasonable efforts to safeguard the confidentiality of personal information. However, due to the design of the Internet, ever-changing technology and other factors outside of our control, we cannot guarantee that communications between you and our servers will be free from unauthorized access by third parties or that we will not be subject to security breaches. We will have no liability for disclosure of personal information due to errors in transmission or unauthorized or unlawful acts of third parties.

You are responsible for the security of your user name, ID and password for any of the TiVo products and services. Please take care when using and storing them.
